HOTEL 5D MOTION RIDE CINEMA - 3 D.O.F.
Modular upgradable Event 5D cinema with mobile dual seats

Features & Setup

- **Modular upgradeable 5D Ride Station**
- Moving dual-seat Motion Simulator with large screen for 2 persons
- Functions via a coin box
- Films are selected at the push of a button
- Emergency-stop button between the seats stops the seats moving, the Motion Seat moves back to its original position, the films continues until the end
- The visitor can take inexpensive 3D polarisation glasses from a box and return them after the film
- Ideal for hotels as attractions in the entertainment areas, in amusement arcades, etc.
- New films via the Internet and as required (also, retrospectively)
- Film update & settings per remote maintenance
- Licence period of the films is at least 6 months
- Completely maintenance-free operation
- Individual maintenance agreements are available
- After sales service

Movie Start

- Coin-Box: Visitors pay with coins
- The visitor selects over 6 lighted buttons a movie
Titel list: Selection of 6 different movies, for example ...
- World of Dragons
- World of ice
- World of Wind
- Race on hummocks
- Race of beetles
- In the tomb of the Pharaohs

Operating Software

- Manual or Automatic Start
- Operation and monitoring seat

Design Example for a fixed installation in a hotel
Important: The danger zone should be protected behind the seat during the show for other people

Features & setup
- Seat lift: 30cm in 1 second
- Branding on the covers and outer area possible
- Room monitoring by means of infrared cameras, so that the supervising staff can intervene in the event of an emergency and activate the emergency stop switch
- Emergency stop button between the seats. Before every viewing, the visitors are shown an intro film (text, sound and graphics) that explains how to press the emergency stop button so that the seat stops moving and returns to its original position

Optional
- Seat belts if required
- The sensors installed ensure that the Motion Seat is deactivated when the visitor leaves the seat. The film is stopped within 5 seconds, the light goes on and the viewing is stopped for safety reasons. Nobody may be in the room whilst the film is showing; only on the Motion Seats in the simulation mode when the film is showing.

Effects on the Motion Seat:
- Chair vibrates
- Feet are tickled via air blowers with air nozzles
- Neck is ticked via air blowers with air nozzles
- Hips are tickled via air blowers (side effect) with air nozzles
- Armrest blower
- Air bubbles (variable setting via the seat and the effect bar, air quantity can be regulated proportionally)

Optional effects in the room:
- Wind (can be regulated proportionally)
- Fog effect (only if there is continuous and fast air circulation in the room)
- Aroma & odour effects (only if there is continuous and fast air circulation in the room)
    - Soap bubbles white (can be used in front of the visitors)
    - Soap bubbles shine gold in UV light (can be used in front of the visitors)
    - Falling snow, disappears completely (can be used in front of the visitors)
- Laser (can be combined well with fog)
- Lightening
- CO_2 effects (bright white, on request)

Films & advertising:
- New films via the Internet and as required (also, retrospectively)
- Film update & settings per remote maintenance
- Licence period of the films is at least 6 months
- Completely maintenance-free operation
- Individual maintenance agreements are available

5D Hotel Motion Ride Event Cinema System
With passive 3D glasses (single use)
1x portable two-seater
1x 84 "passive 3D monitor
1x rack for monitors, servers and Coin Operated, connected to the two-seater
1x Server PC
1x Audio Installation
1x Coin unit
1000x 3D Glasses

5D Hotel Motion Ride Event Cinema System
With active 3D glasses (cleaning after use)
1x portable two-seater
1x 80 "active 3D Monitor
1x rack for monitors, servers and Coin Operated, connected to the two-seater
1x Server PC
1x Audio Installation
1x Coin unit
10x 3D Glasses
